

COPPER IN ARCHITECTURE

COPPER ROOFING

- IN DETAIL -

Publication 156

This publication aims to provide architects and contractors with the technical information needed to design and install fully supported sheet copper roofing in accordance with current good practice.

The details illustrated will meet most of the conditions likely to be encountered. If unusual design situations arise, the principles shown should help in devising a solution.

This 120 page technical manual is available from Copper in Architecture at **£25.00** per copy. If you are outside of the UK postage will be charged.

Please order your copy of Publication 156 by completing and returning this form.

Please send me copies of Publication 156. Total amount due: £.....

(If you are outside of the UK postage will be charged, please contact CDA for postage costs.)
